

COMPANY PROFILE

Woven at our own *mill.*

Suiting, shirting and shalwar kameez fabric —
manufactured in Faisalabad, traded direct from Lahore. No
intermediary between the loom and the buyer.

ENZO · operating under Humayun Ibrahim Textile

ENZO Tower, Main Westwood Road, Thokar Niaz Baig, Lahore, Punjab, Pakistan

01 — The Company

A trading house that became a mill.

Humayun Ibrahim Textile has been in the textile trade since 1996. ENZO is its manufacturing arm — launched in 2014 to weave, under our own name, the cloth we had spent nearly two decades buying and selling.

That sequence matters, because it decides what we can promise. A trader can offer you what the market happens to hold. A mill can commit to a construction and hold it across reorders. We do the second, and we do it on a deliberately narrow range — four qualities, improved rather than multiplied.

Headquarters and trade are in Lahore, at ENZO Tower on Main Westwood Road, Thokar Niaz Baig. Production is in Faisalabad, Pakistan's textile manufacturing centre. Both wholesale buyers and individual customers are served from the same production — the same cloth, by the roll or by the piece.

1996

Humayun Ibrahim Textile established

The parent company begins trading in textiles.

2003

Spinning unit established

Moving upstream from trade into yarn.

2014

ENZO launched

Manufacturing under our own brand — fabric woven, not bought.

02 — The Range

Four qualities. One standard.

We do not carry fifteen articles. We carry four, and the work goes into making them better rather than making the list longer.

Construction is given as reed × pick / warp × weft count — the numbers that actually describe a cloth, rather than a trade name that can mean anything. Every quality below is woven on our own looms.

QUALITY	CATEGORY	CONSTRUCTION	SHADES
Bluebird	Four-Season Suiting	65×58 / 28×28	Eight — Grey, Bright Grey, Pink Grey, Biscuit Grey, Turquoise Grey, Green Grey, Blue Grey, Yellow Grey
LoomAura	Four-Season Suiting	64×64 / 26×26	Black, navy blue
VP Gold	Winter Suiting	56×52 / 20×20	Further shades in production
Stan	Two-Tone Suiting	56×46 / 20×20	Two-tone mid grey

Full specification for any quality is available on request. Send us a construction and we will quote against it.

03 — How We Trade

By the roll, or by the piece.

One production line serves both sides of the business. A wholesale buyer and a walk-in customer are buying the same cloth.

Wholesale

Manufacturer-direct, quoted against your construction. Minimum order 10,000 metres per quality. Send reed, pick, width and yarn count and we will come back with a quotation.

Retail

Finished fabric sold by the piece at ENZO Tower, Lahore. Shades are confirmed against the physical swatch rather than a screen.

10,000 m	Faisalabad	Lahore
WHOLESALE MINIMUM	PRODUCTION	HEAD OFFICE & RETAIL

Markets served

Lahore · Faisalabad · Karachi · Peshawar

Send us a construction.

Quotations are returned within one business day. For retail, ENZO Tower is open to customers in person.
